

# **Exciting AI Announcements from Microsoft Ignite 2024!**

Empowering Innovation & Productivity

# Cloud Adoption Framework for AI

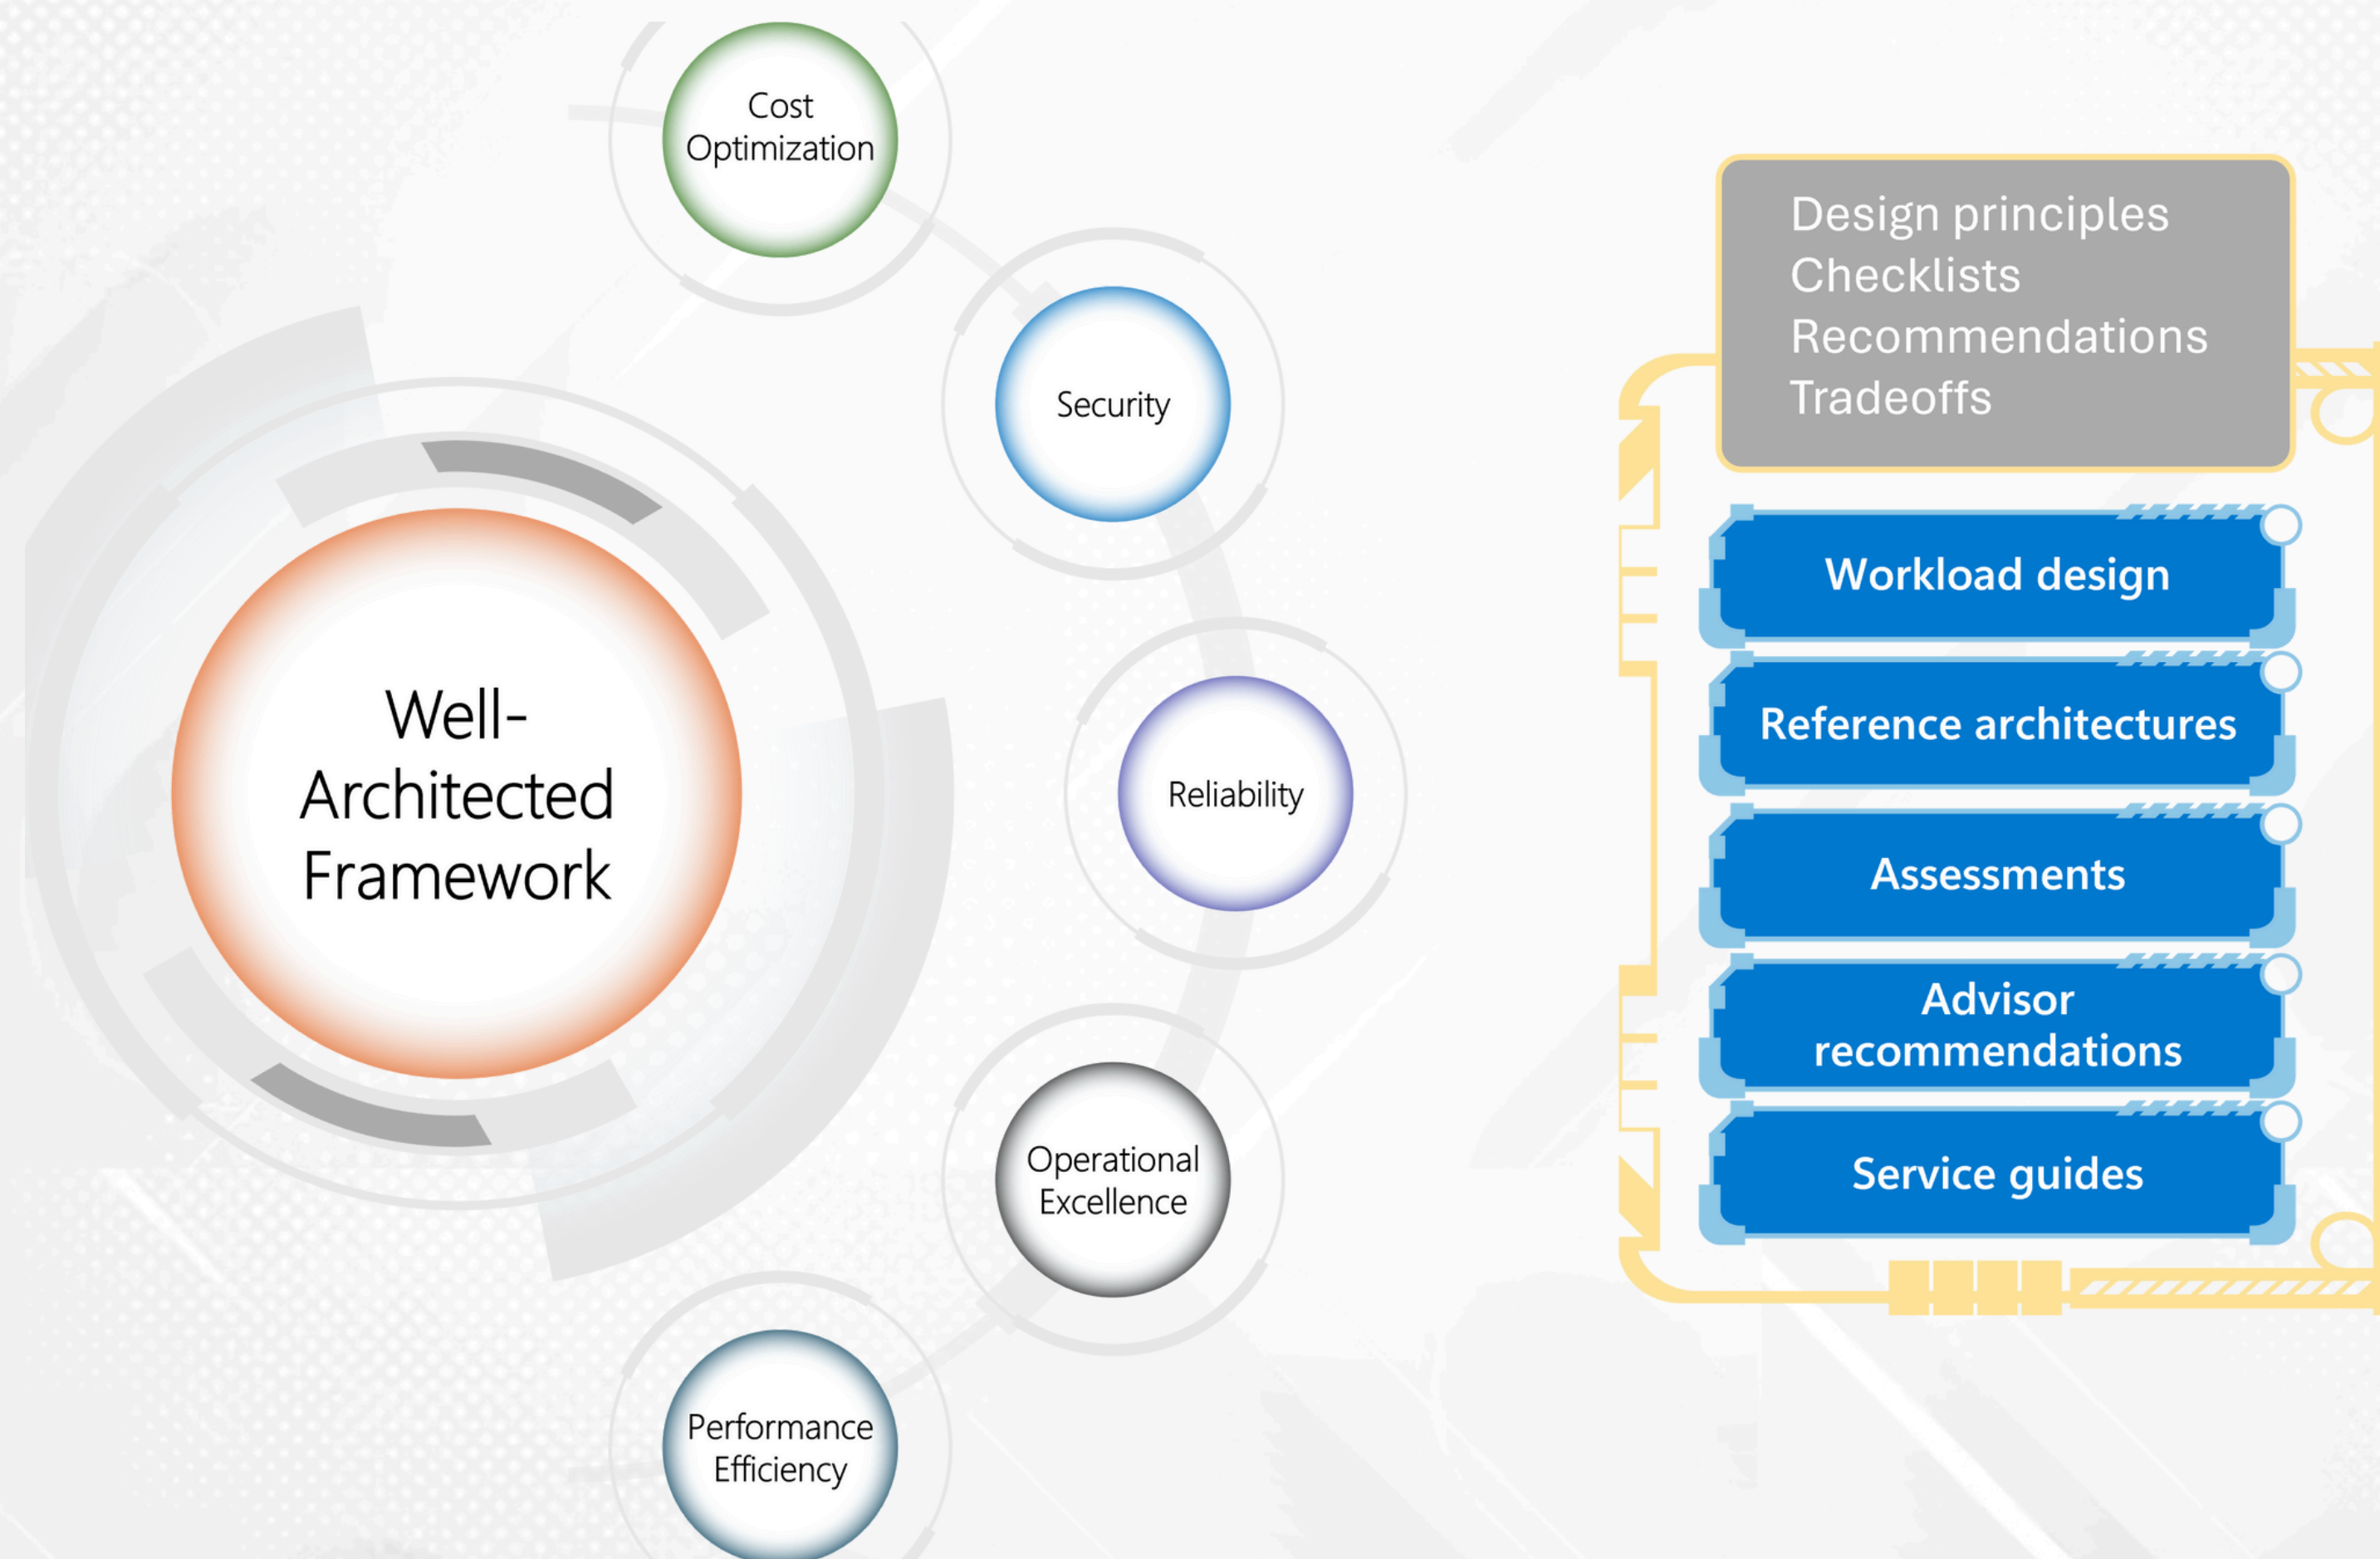

Microsoft's Cloud Adoption Framework for AI offers a comprehensive roadmap for implementing AI solutions in the cloud. The Framework perfectly aligns with Fusefy's Framework in providing a structured approach to implement AI solutions.

# AI Well-Architected Frameworks

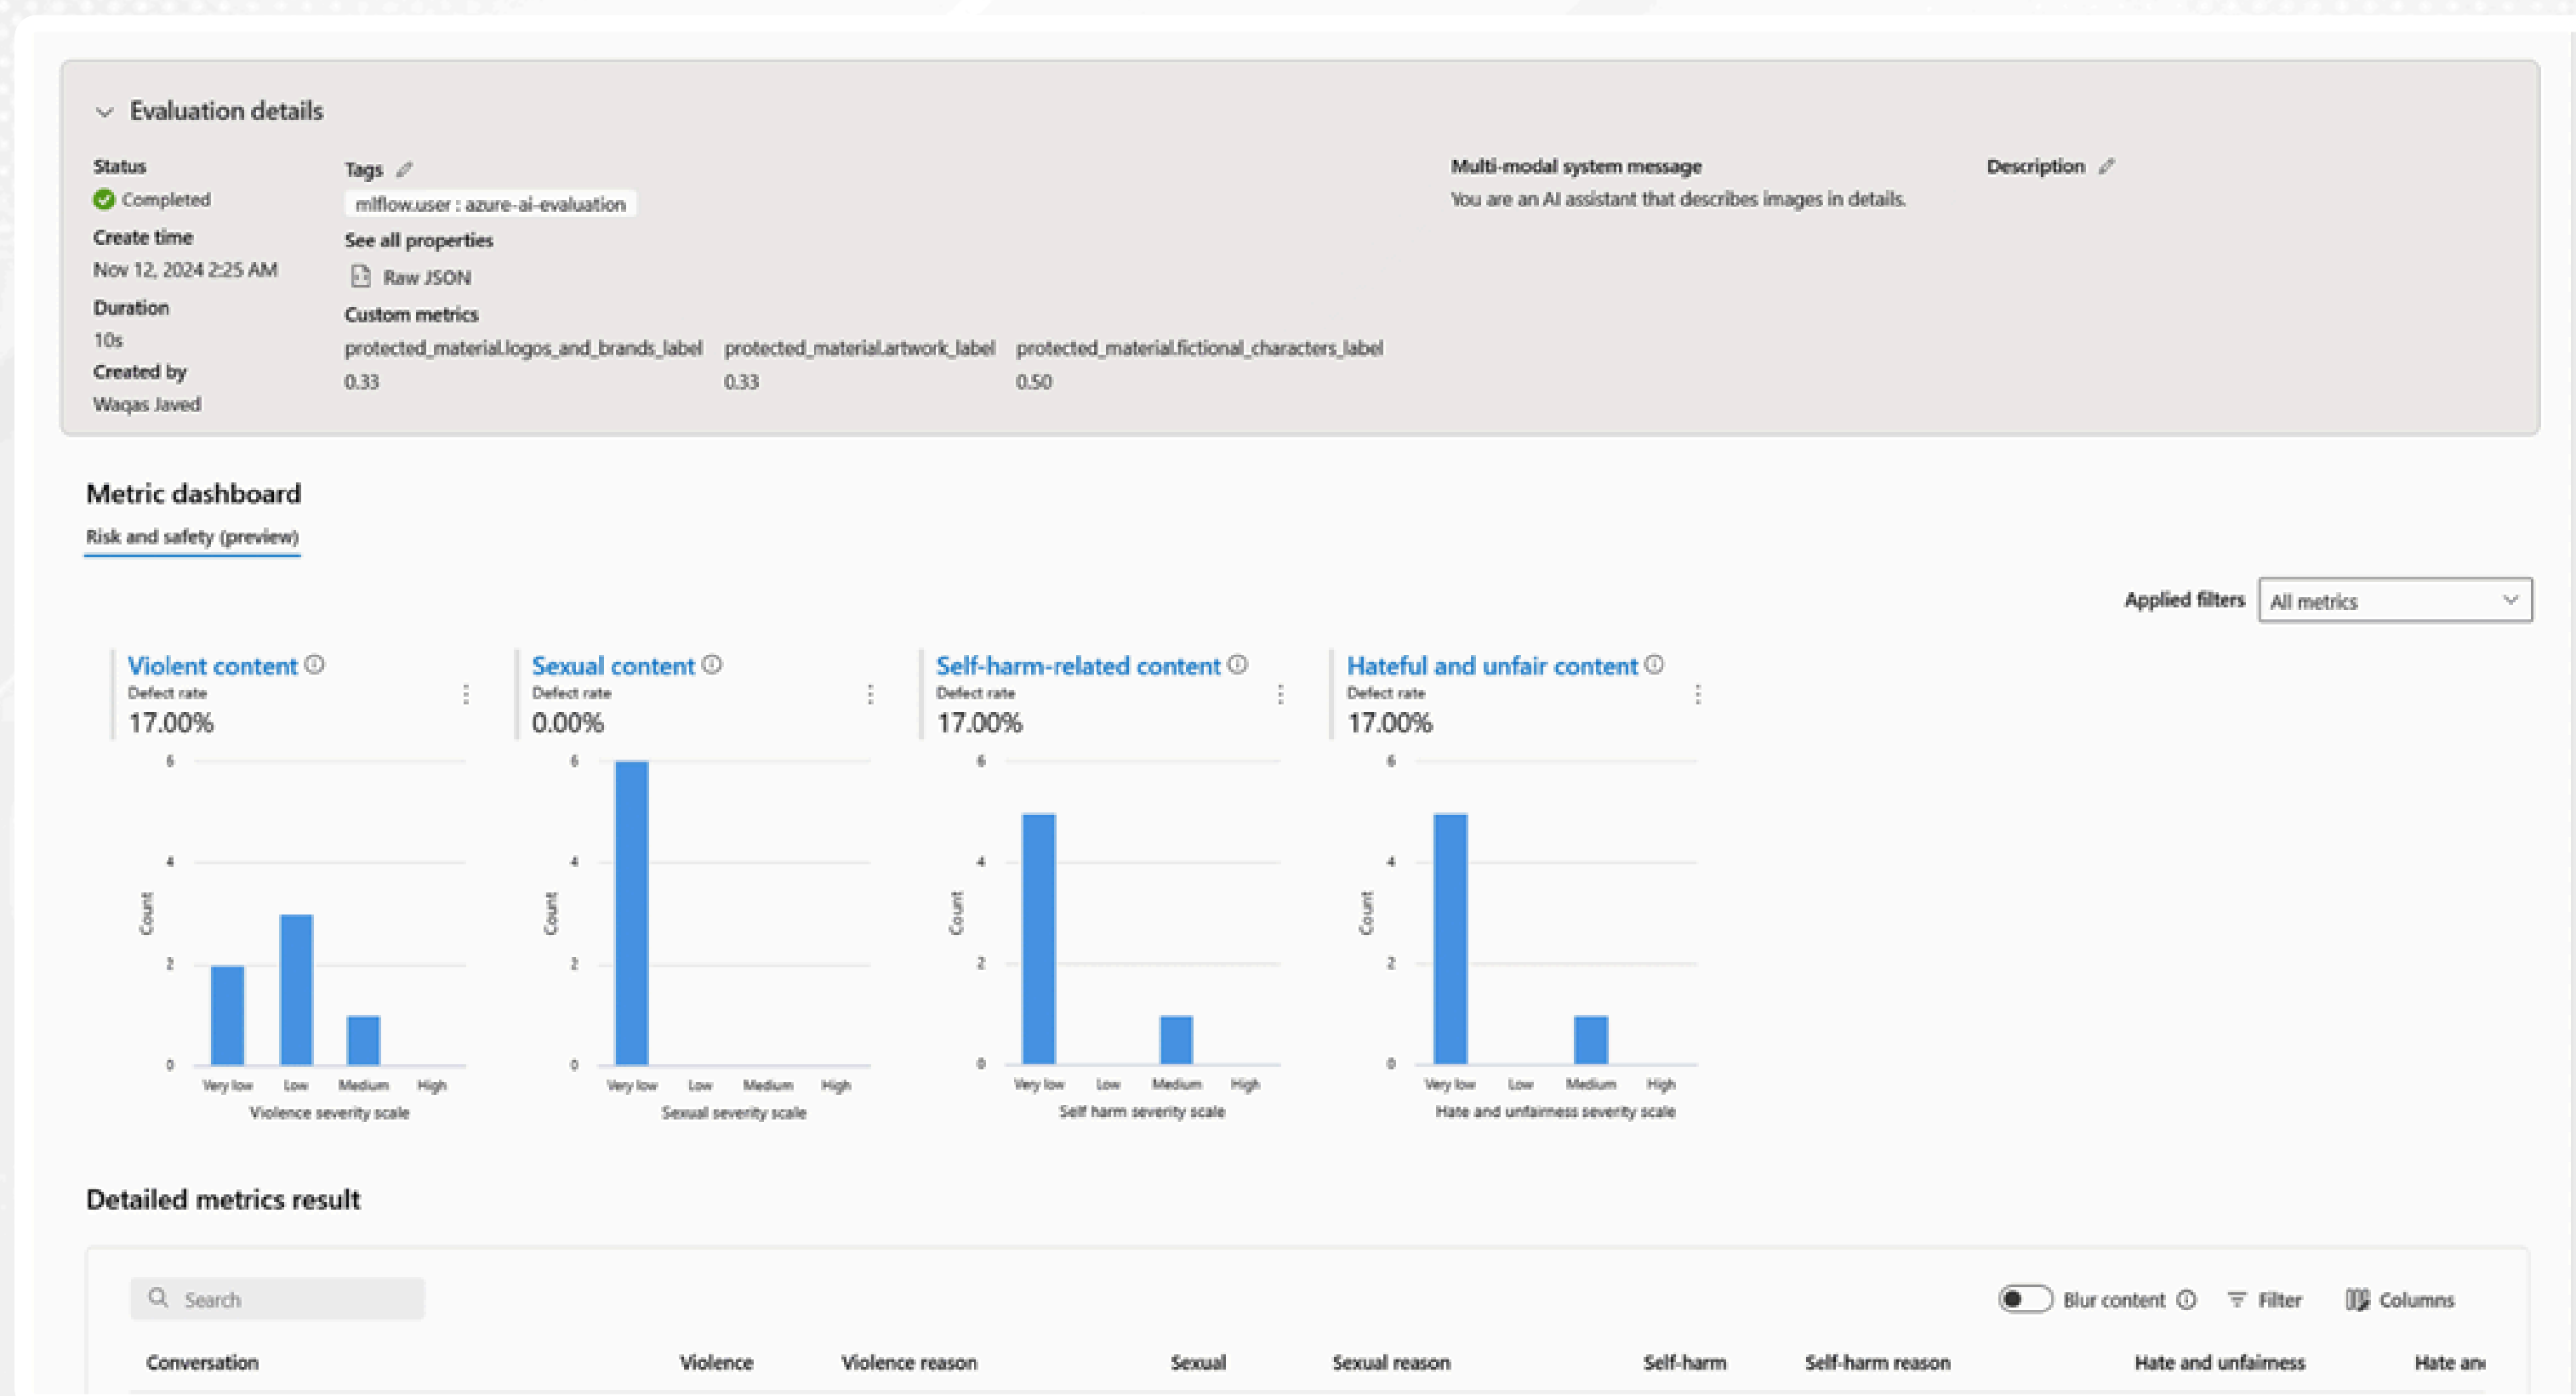

Structured approach for building scalable, reliable, and secure AI solutions, best practices for responsible AI adoption.

# AI Model Accuracy Evaluation and Benchmarks

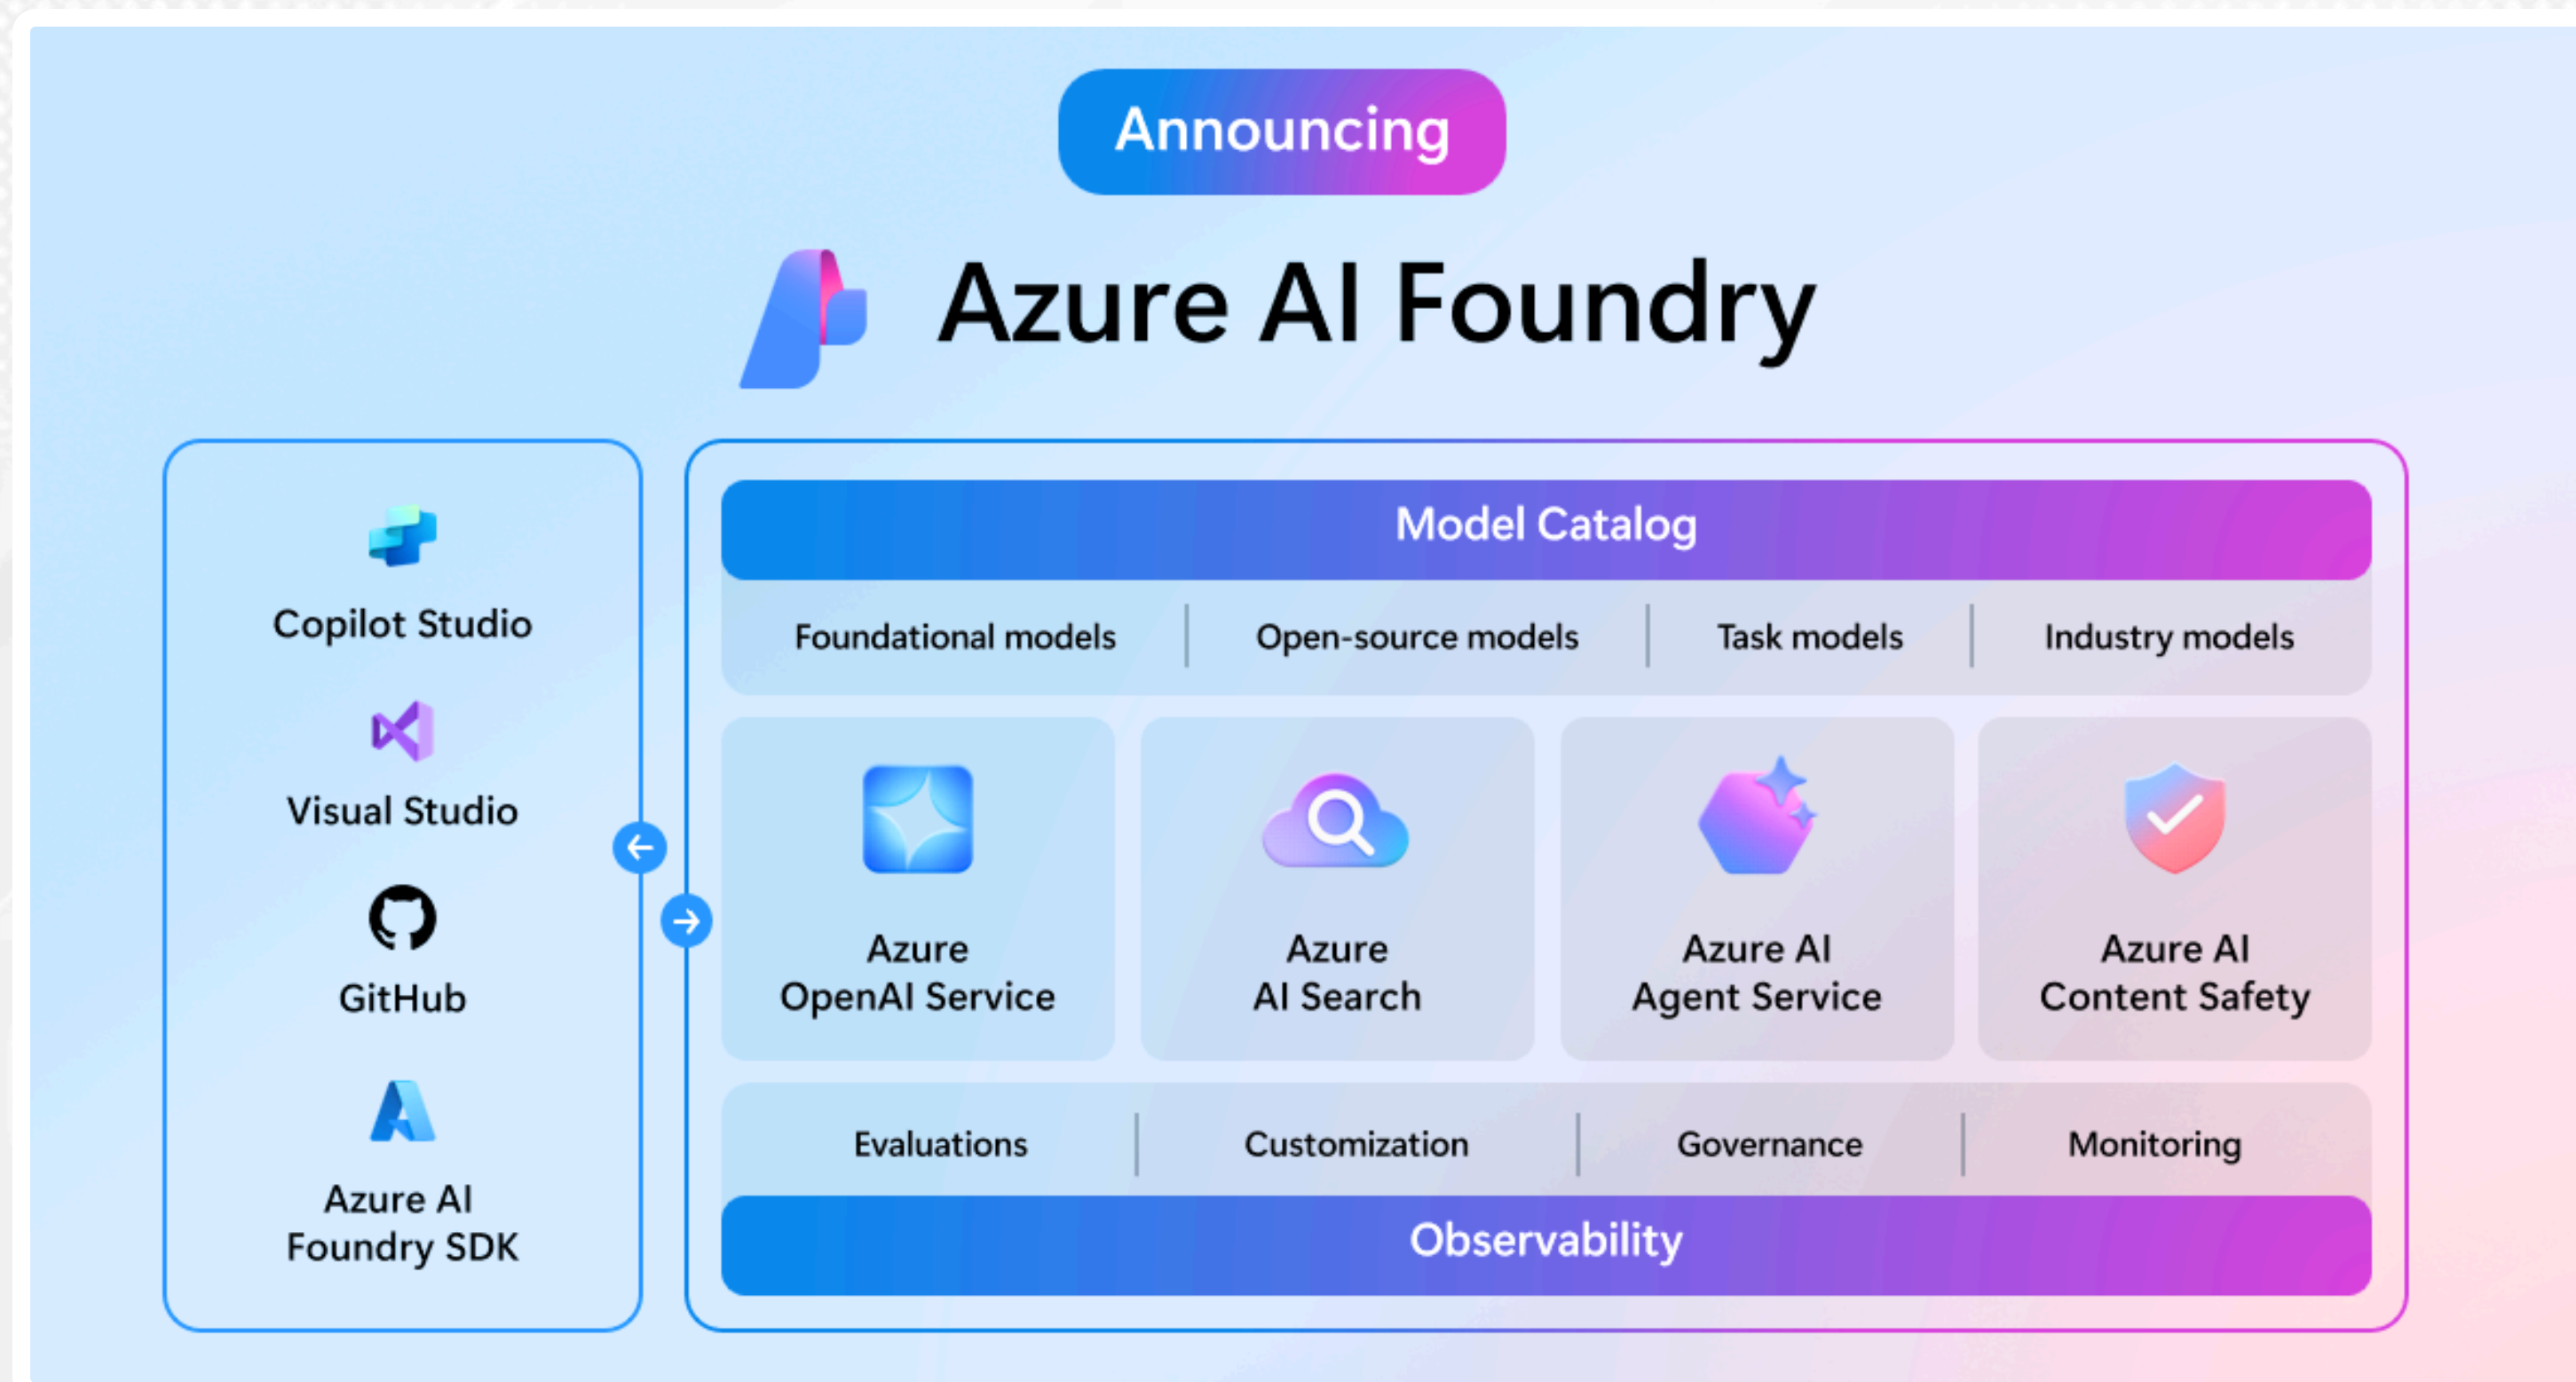

New tools for benchmarking and accuracy checks, integrated with CI/CD pipelines to optimize AI model performance.

# Azure AI Foundry SDK

Robust platform for efficient AI model building and refinement, fostering innovation and rapid iteration.

# Top 5 AI Trends in 2024

1. Enhanced productivity has become table stakes.
2. Companies are gravitating to more advanced AI solutions.
3. Generative AI adoption and value is growing across industries.
4. AI leaders are seeing greater returns and accelerated innovation.
5. Looking ahead: Skilling remains a top challenge.

## \$10x

The top leaders using generative AI are realizing an ROI of \$10x

## <8 Months

On average, AI deployments are taking less than 8 months and organizations are realizing value within 13 months

## 43%

43% say productivity use cases have provided the greatest ROI

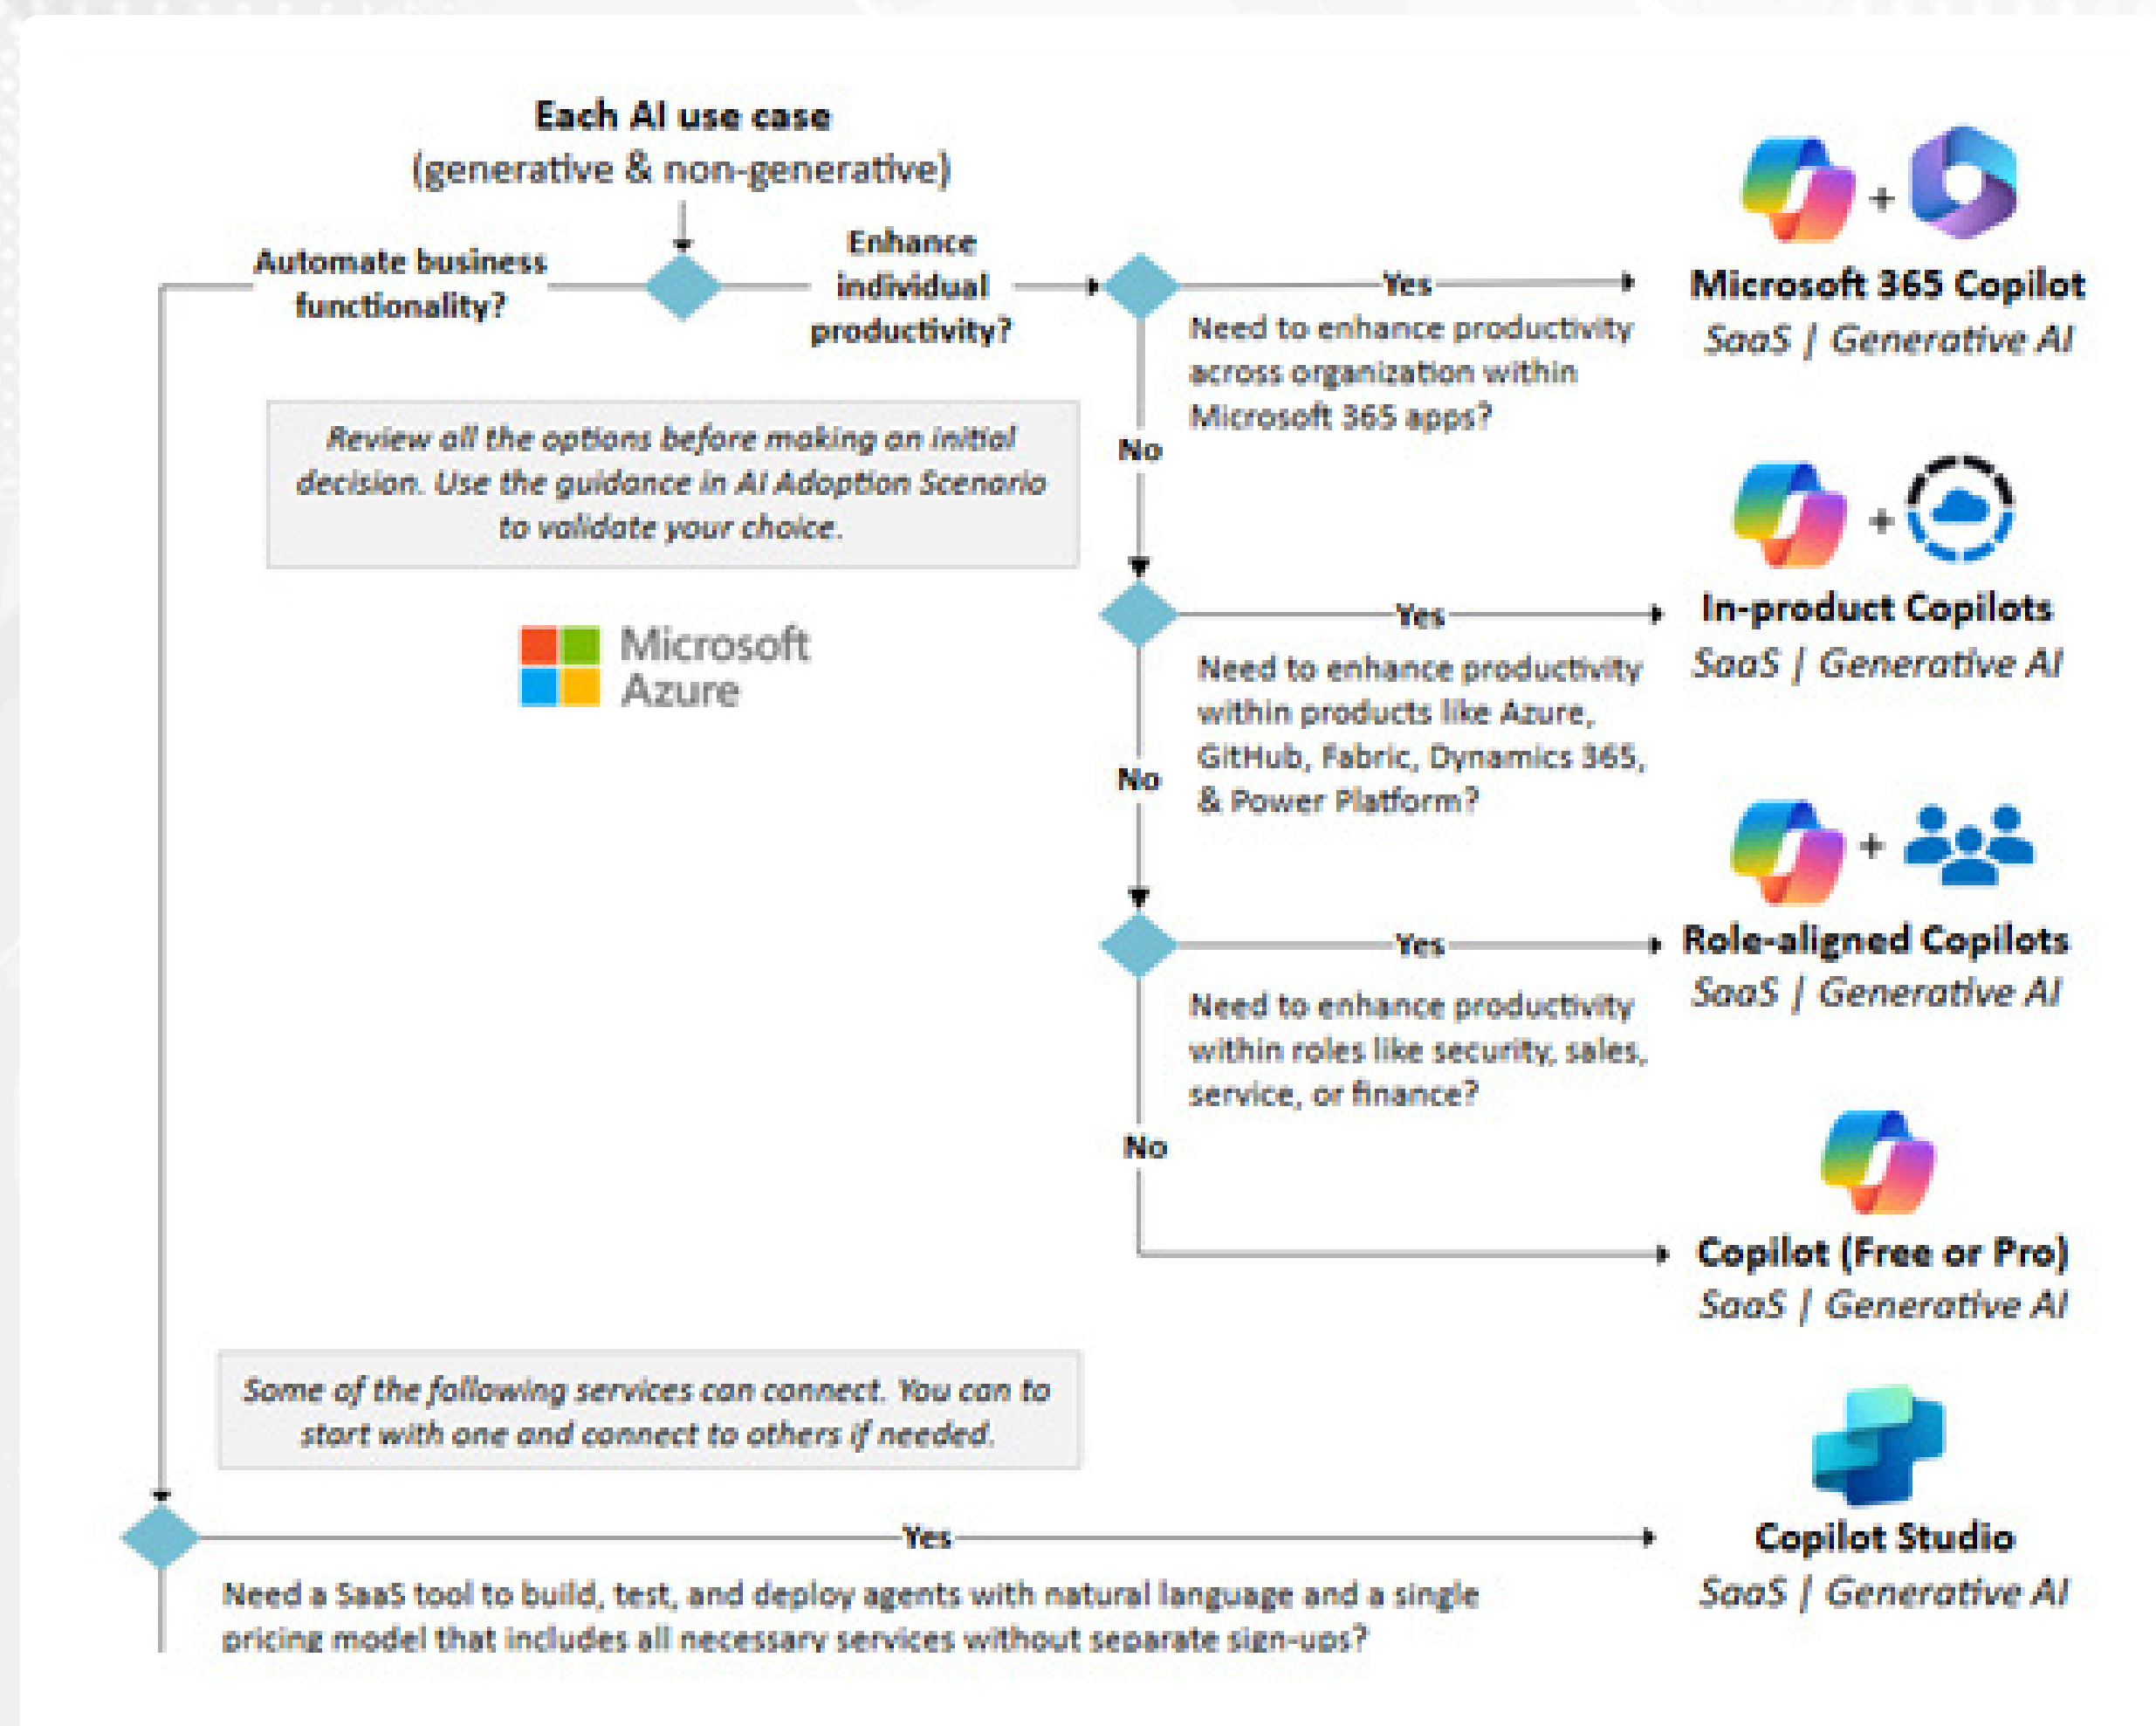

The top barrier when implementing AI is lack of both technical and day-to-day AI skills

IDC InfoBrief: sponsored by Microsoft, 2024 Business Opportunity of AI, IDC# US52699124, November 2024

# Microsoft Copilot AI Actions

New agents and tools empowering IT teams, streamlining workflows across the Microsoft ecosystem.

# Azure AI Search

Generative Query Rewriting and advanced ranking model raising the bar for RAG excellence.

## More speed more relevance

The latest query engine from Azure AI Search delivers **58%** more relevance than vector search.

Now with a next-gen ranker and query rewriting.

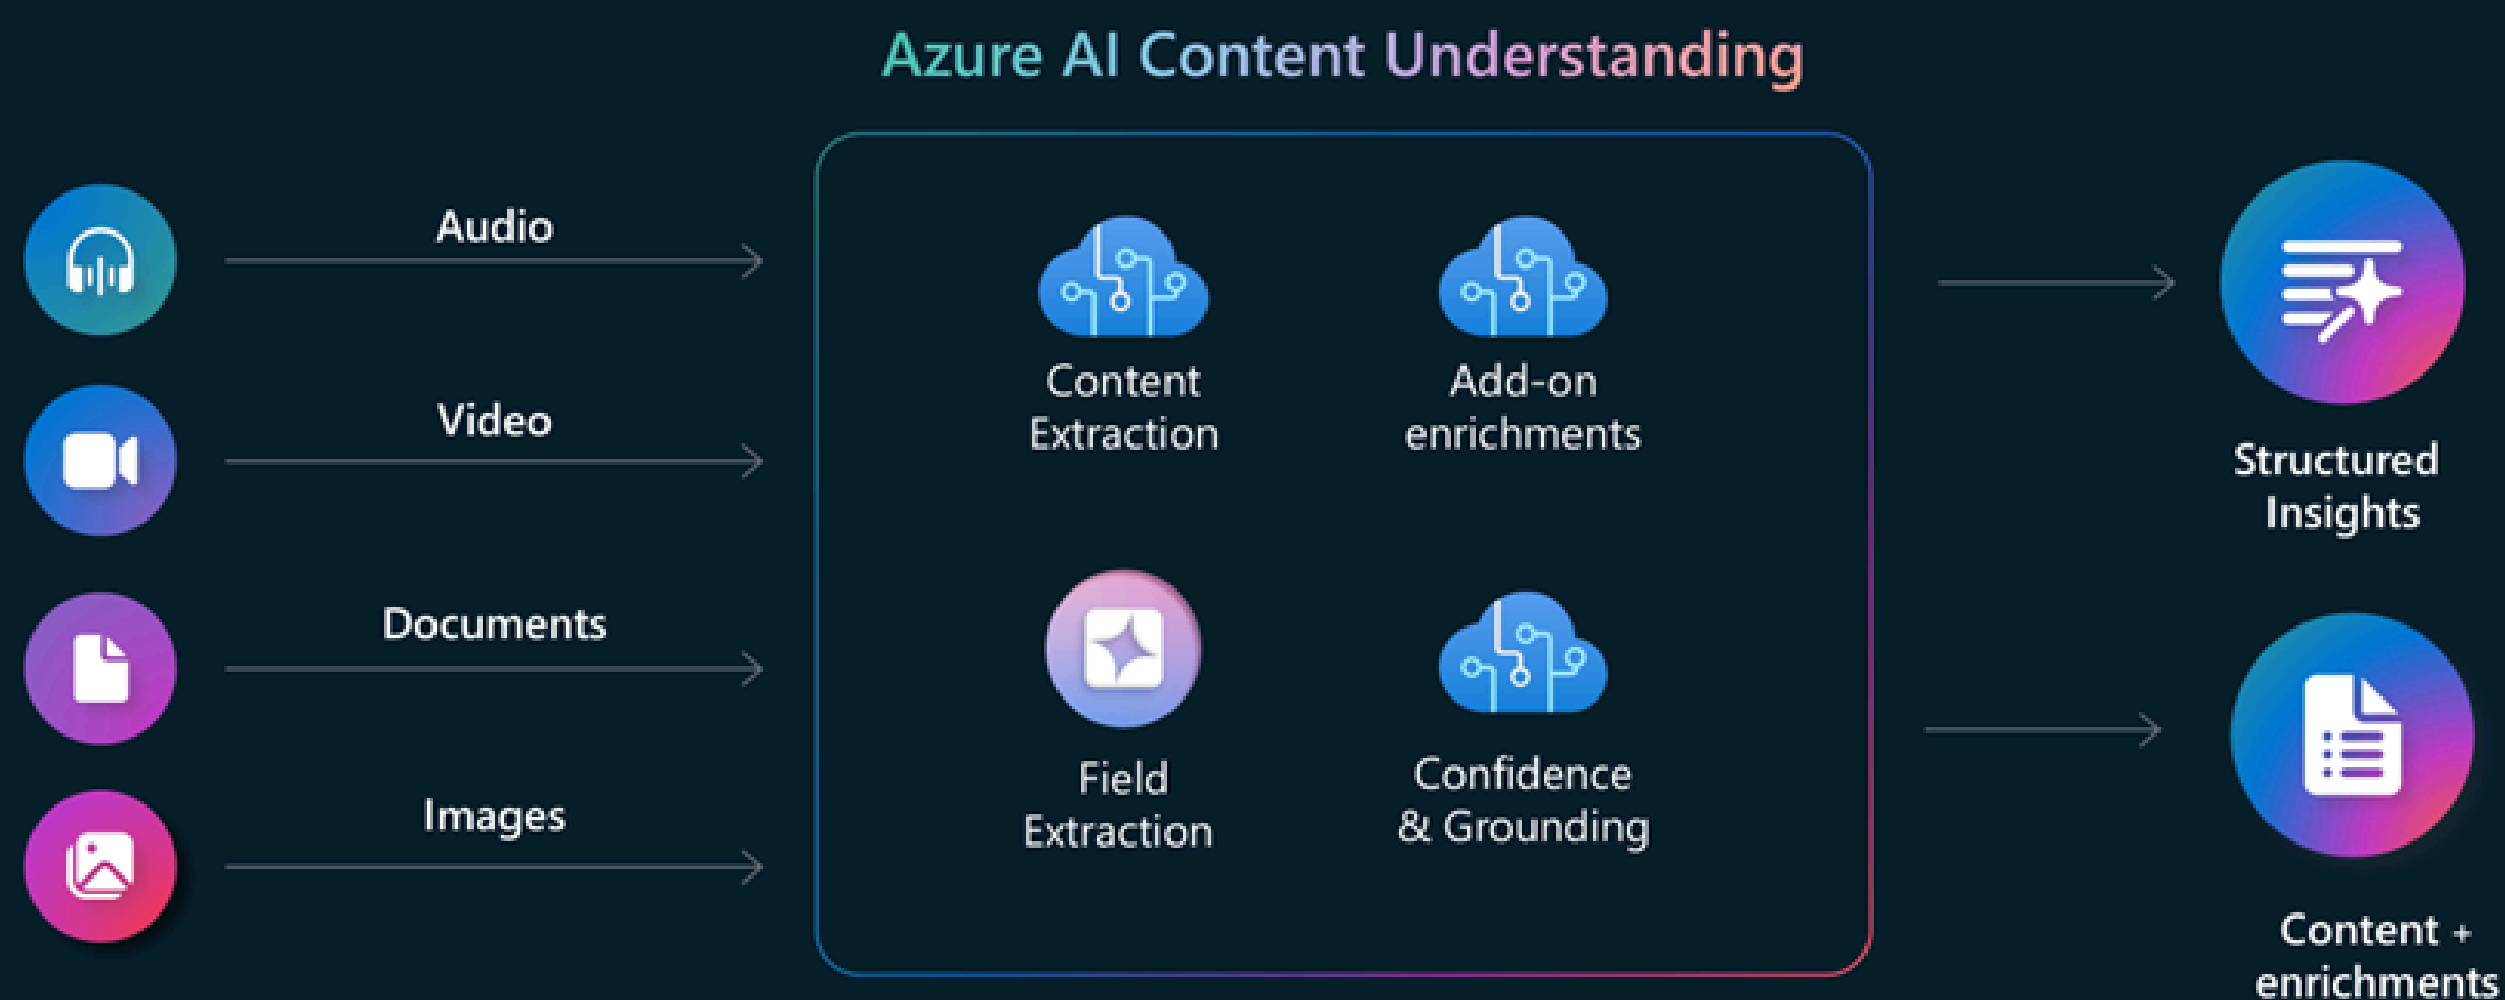

Relevance calculated average across 5 datasets using text-embedding-3-large

# Azure AI Content Understanding

Transforming multimodal data into actionable insights, unlocking hidden value from diverse datasets.
